

BaseDPsy 11

Update to version 11

Update 11.5 (March 25, 2022)

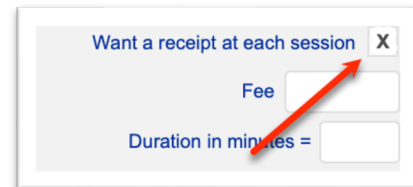

- Added tools to draw a genogram (see tutorial).
- Added statistical reports on cancellations in the waiting list and on reasons for closing cases.
- Correction of tools to display forms and documents.
- Correction of the tool to close the contact's window.
- Improvement of the waiting list printing procedure.

Update 11.432 (January 15, 2021)

- Improvement of several existing routines.

Update 11.43 (December 19, 2021)

- Waiting List: Added Gender and Added Notes to the list, reorganized the information by placing the emergency info closer to the left side of the list (faster access).
- Receipt: Correction of the billing procedure to offer the user the automatic sending of the receipt if the box is checked in the file section.
- Export the whole file in PDF (file section): the procedure has been corrected to include the anamnesis.

Update 11.3 (November 6, 2021)

- Notes: Fixed tool to insert canvas when adding a note to a follow-up summary that is categorized as "Completed".
- Forms:
 - ⇒ Updated the IVAC and CNSST forms.
 - ⇒ Updated the IVAC debtor invoice template.

Update 11.2 (October 22, 2021)

- Notes section Added choice between two supervisors.
- Report section: Added tool to lock report.
- Data (Diagnosis) section Added ICD-11 English and French mental health and sexology diagnoses.

Update 11.1 (October 11, 2021)

- Gender field added in Data.
- An email attachment for the PDF consent form has been added to the Records section of the Service Agreement section.
